

Please also note our general details and sales information

Edition 29.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/3

Single chair, metal base frame, form foam

Seat upholstery structure: form foam, Diolen

Back upholstery structure: form foam, Diolen

UPHOLSTERY FIRM

With a firm upholstery you do not sink very deep into the upholstery but sit „on the sofa“. The ridge of covers is avoided extensively by constructive measures (among others prestressed upholstery). Drawings e.g. at curves, gathers are according to the construction or the design.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

COMBINATION OF COVERING MATERIALS

If desired with this model two different covers can be combined.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

With combination of two covering materials different in prices the higher price category will be invoiced as standard.

Fabric- and leather requirement of each cover part on request.

 cover part 1: seat and back

 cover part 2: seat- and back tensioning section

LEGS

Chair SVX

Solid wooden leg (UV laminated with oil effect) optionally available in:

- wild oak natural
- walnut

from the left to the right:

The chair ACY is rotatable up to 320°.

Chair SSX

Metal leg optionally available in:

- structural black mat
- nickel satined (stainless steel optics)

The chair SSX is rotatable up to 360°.

Chair SYX

Metal leg chamfered optionally available in:

- structural black mat
- nickel satined (stainless steel optics)

The chair SYX is rotatable up to 360°.

In addition all seats have an automatic return. Here the seat returns self-acting into the basic position on standing up.

Please note:

The metal leg chamfered is not suitable for sensitive floor coverings! Due to the small area of contact of the separate legs this base frame can cause scratches or pressure marks on sensitive floor coverings such as softwood, parquet etc..

Edition 29.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective.

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric-leather-combinations a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible.

Exception fabric 13-BISON:

This fabric can be produced with contrast stitching. A contrast thread colour must be explicitly chosen.

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on the rear side.

LIGHT GREY 0321

BEIGE 1222

NOUGAT 0281

GREY 0415

DARK BROWN 1002

BLACK 4000

RED 0504

DARK BLUE 0827

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as felled seams or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

This model is only worked with selvedge seam.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

Alternative covers of the wide upholstery covering material collection (**exception N-NATURO**) are possible as custom-made product. Therefore an extra charge of all in 20% is valid for fabric and leather.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in

ORDER CHECK LIST

Please pay attention to the following issues respectively complete specifications when ordering:

- **article**
- **covering material**, with combination of covering materials **covering material per cover part** (in general N-NATURO is not possible)
- with leather covers and fabric-leather combinations **production with or without contrast stitching**
- with version with contrast thread **colour of contrast thread**
- with SVX: **finish of solid wooden leg**
- with SSX and SYX: **finish of metal leg**

Errors and amendments excepted. Our General Terms and Conditions are effective.
