## DESIGN

### CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, wooden base frame with metal back

Seat upholstery structure: zig-zag spring, Dacron, polystyrene foam VW 40, 70% foam cubes VW 40, 30% fibre balls, Diolen

Back upholstery structure: rubber straps, polystyrene foam, 70% foam cubes, 30% fibre balls, Diolen

### UPHOLSTERY VERY CASUAL

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A particularly casual upholstery is characterized by a very comfortable and soft surface. Even when new or after initial use, the covers can show a clearly visible wave pattern on the seat, back and armrests, which is unavoidable due to the design, construction and material and will increase with use. The size of the sewn covers also has a similar influence on sinking and cover stretching. The softer the upholstery and the larger the seat surface, the greater the sinking in and ultimately the cover stretching. This high quality upholstery with bay quilting contains a flexible mixture out of loose filling material as foam sticks and/or plumes that enables a point adaptation to the body. For this the fillings are worked in separate bays that according to the cover come more or less apparent. Sitzmarks are due to model and design typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no reason for complaint.

### BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

## LEGS

Plastic glider (5 cm high)

## COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

## FUNCTIONS

### I FUNCTIONAL ARMREST

The armrests are infinitely adjustable in the front by a link chain mechanism. The total width is enlarged up to 6 cm per folded armrest.

### II RAISABLE FUNCTIONAL BACK CUSHION

With all elements the back cushions can be raised by a ratchet mechanism. The sofa becomes a high back.

### III FUNCTIONAL BACK FOR SEAT DEPTH ADJUSTMENT (code X)

The back adjustment is released via incorporated metal joints by light lifting and concurrent pressure backwards respectively concurrent draw forwards. Thereby the back can be put forward or backward. Therefore the seat depth is reduced respectively enlarged. The armrests move to the same. The daybeds P1/2 and PL/R have no seat depth adjustment.

## INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

Please also note our general details and sales information

Edition 20.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective.

## SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as felled seams or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

### AVIVO 1

- **Fabric: 2-needle-seam or joining seam** (depending on the material)
- **Leather: 2-needle-seam**

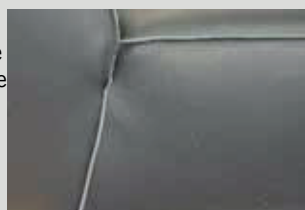

### AVIVO 2

- **Fabric: 2-needle-seam or joining seam** (depending on the material)
- **Leather: open selvedge seam**

**Please note with AVIVO 2:** With production in leather there might be acceptable colour variations with the open seam between in- and outside of the leather.

(exemplary picture)

**The colour variation can arise in particular with working of leather B-BULL!**

## ORDER CHECK LIST

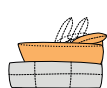

Please pay attention to the following issues respectively to complete specifications when ordering:

- **combination**
- **covering material**

Errors and amendments excepted. Our General Terms and Conditions are effective.

**WITH SEAT DEPTH ADJUSTMENT** Elements with functional armrest, raisable functional back cushions and functional back for seat depth adjustment (code X). By placing the back- and armrest function forward the seat depth is reduced up to 15 cm. By raising the back cushions the total height is enlarged up to 24 cm and the total depth is reduced up to 7 cm.
