Edition 04.02.2019

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure: rubber straps, polystyrene foam VW 40, Diolen

Back upholstery structure: rubber straps, polystyrene foam, Diolen

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavelless. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

STANDARD FUNCTIONS

FUNCTIONAL HEAD PIECE

The head piece can be adjusted (manual) by a bearing that allows different positions.

FREE MOTION models allow latitude referring to functional control: Seat adjustment as well as adjustment of leg part and sideward movement are controled via sidewise fixed **sensors on the cover** (motor-driven adjustment).

INSIDE at the seat for sideward movement to the left and right

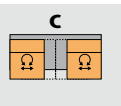

OUTSIDE at the seat for seat adjustment (seat, back and leg part)

ELEMENTS WITH EPOS 1, EPOS 2, EPOS 3

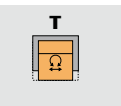

FUNCTIONAL ELEMENT C with slidabile and turnable seat as well as seat adjustment

The leg part and the back can be infinitely adjusted separate of each other via motor. The handling is carried out by the sidewise (outside of the seat) fitted 4 buttons. In addition to the seat adjustment the seat can be moved to the left respectively to the right via 2 further buttons at the inside of the seat. The thereby enlarged space of respectively approx. 28 cm can be used as shelf.

In addition both seats are manually turnable up to 320° to the left and to the right.

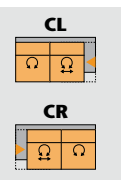

FUNCTIONAL ELEMENT T with slidabile and turnable seat as well as seat adjustment

The leg part and the back can be infinitely adjusted separate of each other via motor. The handling is carried out by the sidewise (outside of the seat) fitted 4 buttons. In addition to the seat adjustment the seat can be moved to the left respectively to the right via 2 further buttons at the inside of the seat. The thereby enlarged space left respectively right of approx. 28 cm can be used as shelf.

In addition both seats are manually turnable up to 320° to the left and to the right.

FUNCTIONAL ELEMENT CL/R with slidabile and turnable seat as well as seat adjustment

The leg part and the back can be infinitely adjusted separate of each other via motor. The handling is carried out by the sidewise (outside of the seat) fitted 4 buttons. In addition to the seat adjustment the seat can be moved to the left respectively to the right via 2 further buttons at the inside of the seat. The thereby enlarged space of respectively approx. 28 cm can be used as shelf. In addition both seats are manually turnable up to 320° to the left and to the right.

Please note:

- With **CL** the **right seat is sidewise slidable**.
- With **CR** the **left seat is sidewise slidable**.

ADD-ON CORNER IL/R with head piece adjustment

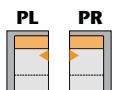

The add-on corner has 3 functional head pieces.

ADD-ON CORNER I1/2 with head piece adjustment

The add-on corner has one functional head piece.

DAYBED PL/R with back adjustment

The back can be infinitely adjusted via motor. The handling is carried out by the sidewise (outside of the seat) fitted 2 buttons.

FUNCTIONAL STOOL HF with turnable seat

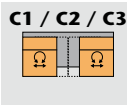

The seat is manually turnable up to 320° to the left and to the right.

ELEMENTE FÜR EPOS 4

Elements C1, C2 and C3

FUNCTIONAL ELEMENT with movable and turnable seats as well as seat adjustment

The leg part and the back can be adjusted separately of each other via motor. The handling is carried out by the sidewise (outside of the seat) fitted 4 buttons. In addition to the seat adjustment both seats can be moved independently of each other to the left respectively to the right by 2 further buttons at the inside of the seat. The space of respectively approx. 28 cm arisen out of it can be used as shelf. In addition the seats are manually turnable up to 320° to the left and to the right.

OPTIONAL FUNCTIONS

Handling via remote control (BLT):

Alternatively the functional control via **remote control** is possible. Always within reach it is fixed at the seat via an incorporated magnet sidewise in the seat. The remote control is using Bluetooth technology.

For that reason also an **APP** can be alternatively used to control the electric functions (seat adjustment and sidewise movement).

Handling via App (incl. in BLT):

The free of charge App for Android and Apple system software is available on Google Play respectively in Apple Store under the name „vibradorm“. The download and the installation equates to the popular procedure of App's.

After installation of the App and the activation of the Bluetooth function you have to interconnect your Smartphone with the seat for operating the functions.

BLT is combining the motor-driven functional control via remote control **and** App for mobiles as an optional possibility for adjustment of seat, back as well as leg part and sidewise movement. **Sidewise functional sensors at the seat are omitted and are replaced by the remote control.**

COMBINATION OF COVERING MATERIALS

If desired two different covering materials can be combined with the seats.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

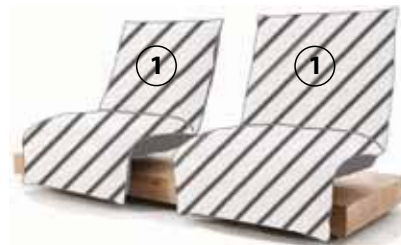

With combination of two covering materials of a different price the higher price category will be invoiced as standard.

Please note: Due to production-related reasons our NATURO leather can't be produced in combination of covers!

Fabric - and leather requirements of each cover part on request.

 cover part 1: seat and back

 cover part 2: seat- and back tensioning section

CUSHION RECOMMENDATION

With the **add-on corners I1/2** we recommend to use in addition the back cushion Y (84 x 48 cm) for an optimal and improved seat comfort.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

Please also note our general details and sales information

Edition 04.02.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

WOODEN SURFACES

WOOD VENEER

Only the high-quality trunks and therefore the smallest part of the total felling can be used for the furniture construction. That applies to the use of the trunk for veneer production, too. The choice of wood is done selectively according to the requests typical for furniture.

In contrast to solid wood veneered surfaces are less sensitive to variabilities of temperature and dampness. Veneered surfaces are protected. This makes the care especially easy and exerts the beauty of the material.

Beam oak UV laminated with oil effect: Beam oak is no special kind of oak, but the name should make clear that it is a matter of specific sort of oak. Solely oak trunks that have grown in special areas and possesses as much as possible branches will be used. Different congeries of branches and knotholes in different sizes are typical characteristics. Reworked respectively ground wind shocks and nicks as well as cross cracks in branches, grain wood cracks or growth cracks render a wide colour spectrum and are typical for beam oak.

The plateaus and tables (**EPOS 2** and **EPOS 3**) are optionally available in:

- walnut (UV laminated with oil effect)

- beam oak (UV laminated with oil effect) against extra charge see price sheet

If desired more colours on the basis of oak veneer according to sample against extra charge available.

We are pleased to make an individual offer.

MDF

MDF is a wood composite. It is made out of micro-milled wood by gentle pressing operation. The outcome of this is a fine nearly uniform design.

The plateaus and table K (**EPOS 2** and **EPOS 3**) are optionally available in:

- white RAL9016 (lacquered)

- fango (lacquered)

- taupe (lacquered)

- anthracite RAL7016 (lacquered)

Extra charge per article MDF:

If desired more colours on the basis of oak veneer according to sample against extra charge available.

We are pleased to make an individual offer.

Please also note our general details and sales information

Edition 04.02.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

PLATEAU AND LEGS WITH EPOS 1, EPOS 2 AND EPOS 3

EPOS 1 clear of ground covered
with metal legs powder-coated black mat

Plateau can be chosen independently of the seats in all covering materials of the current Collection.

With combination of two covering materials of a different price (seats and plateau) the higher price category will be invoiced as standard.

Fabric- and leather requirement of the plateaus on request.

EPOS 2 clear of ground
with metal runner powder-coated black mat.

Plateau optionally available in:

WOOD VENEER
(UV laminated with oil effect)

- walnut
- beam oak against extra charge see price list

MDF (lacquered) against extra charge see wooden surfaces

- white RAL9016
- fango
- taupe
- anthracite RAL7016

EPOS 3 near ground
with metal legs powder-coated black mat.

Plateau optionally available in:

WOOD VENEER
(UV laminated with oil effect)

- walnut
- beam oak against extra charge see price list

MDF (lacquered) against extra charge see wooden surfaces

- white RAL9016
- fango
- taupe
- anthracite RAL7016

TABLES WITH EPOS 1, EPOS 2 AND EPOS 3

The **table K matching EPOS 1** will be covered completely and can be delivered in all covering materials of the current Collection.

The **table K matching EPOS 2** is available in the following surfaces:

WOOD VENEER
(UV laminated with oil effect)

- walnut
- beam oak against extra charge see price list

MDF (lacquered) against extra charge see wooden surfaces

- white RAL9016
- fango
- taupe
- anthracite RAL7016

The **table K matching EPOS 3** is available in the following surfaces:

WOOD VENEER
(UV laminated with oil effect)

- walnut
- beam oak against extra charge see price list

MDF (lacquered) against extra charge see wooden surfaces

- white RAL9016
- fango
- taupe
- anthracite RAL7016

The **side table KA** is optionally available in:

WOOD VENEER
(UV laminated with oil effect)

- walnut
- beam oak

WOODEN SURFACES

WOOD VENEER

Only the high-quality trunks and therefore the smallest part of the total felling can be used for the furniture construction. That applies to the use of the trunk for solid wood production, too. The choice of wood is done selectively according to the requests typical for furniture.

In contrast to solid wood veneered surfaces are less sensitive to variabilities of temperature and dampness. Veneered surfaces are protected. This makes the care especially easy and exerts the beauty of the material.

Beam oak UV laminated with oil effect: Beam oak is no special kind of oak, but the name should make clear that it is a matter of specific sort of oak. Solely oak trunks that have grown in special areas and possesses as much as possible branches will be used. Different congeries of branches and knotholes in different sizes are typical characteristics. Reworked respectively ground wind shocks and nicks as well as cross cracks in branches, grain wood cracks or growth cracks render a wide colour spectrum and are typical for beam oak.

SOLID WOOD

Only the high-quality trunks and therefore the smallest part of the total felling can be used for the furniture construction. That applies to the use of the trunk for solid wood production, too. The choice of wood is done selectively according to the requests typical for furniture.

Wood is an agile material and reacts to the room climate, i.e. it absorbs dampness of the air and dispenses it again. As a basic principle wood has the characteristic to act naturally (to expand/decrease). The technical processing shows natural characteristics; dimensional tolerances are possible. These characteristics constitute no grounds of complaint.

MDF

MDF is a wood composite. It is made out of micro-milled wood by gentle pressing operation. The outcome of this is a fine nearly uniform design.

- white RAL9016 (lacquered)
- fango (lacquered)
- taupe (lacquered)
- anthracite RAL7016 (lacquered)

If desired more RAL colours against extra charge available.

We are pleased to make an individual offer.

PLATEAU AND LEGS WITH EPOS 4

Element C1 - solid wooden frame with inlay with metal legs powder-coated black mat

Frame (UV laminated with oil effect) optionally available in:

- walnut solid
- beam oak solid

Inlay is optionally available in:

COVERED, can be chosen independently of the seats in all covering materials of the current collection

MDF (lacquered) optionally available in:

- white RAL9016
- fango
- taupe
- anthracite RAL7016

Element C2 - frame covered with inlay with metal legs powder-coated black mat

The frame can be chosen independently of the seats in all covering materials of the current collection.

Inlay is optionally available in:

WOOD VENEER (UV laminated with oil effect)

- walnut
- beam oak

MDF (lacquered) optionally available in:

- white RAL9016
- fango
- taupe
- anthracite RAL7016

Please note: The element C2 with covered frame can't be produced with covered inlay!

Please also note our general details and sales information

Edition 04.02.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

PLATEAU AND LEGS WITH EPOS 4

ELEMENT C3 - plateau

with metal legs powder-coated black mat

STONE OPTICS

CEMENT SURFACE (laminated wood panel with cement surface)

MDF (lacquered) optionally available in:

- white RAL9016
- fango
- taupe
- anthracite RAL7016

EPOS 1, EPOS 2, EPOS 3 and EPOS 4 can't be combined with each other!

PLATEAU HEIGHT AND CLEARANCE HEIGHT

EPOS 1, EPOS 2 and EPOS 4

The total height of the plateau (incl. leg) is approx. 18 cm and the clearance height is approx. 12 cm.

EPOS 3

The total height of the plateau (incl. leg) is approx. 18 cm and the clearance height is approx. 4 cm.

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

The model is only worked with selvedge seam.

ARMREST CUSHION (YA2)

With all elements armrest cushion **YA2** insertable by brackets.

The bracket is upholstered and covered in the respectively desired covering material.

NECK CUSHION (YN)

Counter weight

without magnet, cushion fixation via an affixed counter weight.

LOAD CAPACITY

Please note: Each seat can be weighted with maximum 130 kg body weight. Therefore only one person should sit on a seat.

The weight carrying capacity of functional parts is limited and not designed for load with the body weight (max. 30 kg). The moved out leg part as well as the adjustable functional back must not be used as seat.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

Please also note our general details and sales information

Edition 04.02.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

SOUNDSYSTEM (SS)

Optional sound system with control via Bluetooth (SS).

Your suite gets an entertainment center with this sound system. The system is equipped with a Bluetooth audience and 2 corpus sound converter (exciter).

The plateau converts into a resonator for music playback via exciters.

Choice and volume of the music can be controlled by Smartphone, tablet or laptop wireless via Bluetooth.

Performance: Stereo

Power input: operation with 2 exciters: 30 W

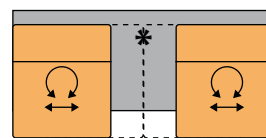

Stand-by: less than 0,3 W

Output: amplifier power 20 W

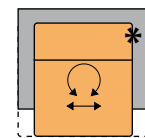

Tuning range: ca. 10 m

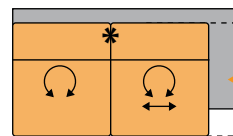

The position marked in the pictogram with a star is emblematising the **position** of the **mediastation** on the respective plateau respectively on the table:

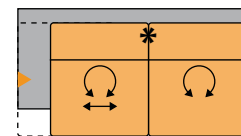

Functional element 2-seats
(EPOS 1-3 = C)
(EPOS 4 = C1/C2/C3)

Functional element
(T - only with EPOS
1-3)

Functional element 2-seats left/right
(CL/CR - only with EPOS 1-3)

Functional stool
(HF - only with EPOS 1-3)

Table
(K - only with EPOS
1-3)

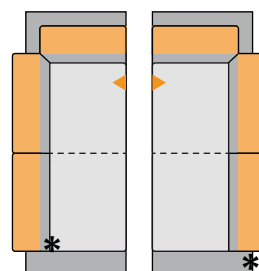

MEDIA STATION (MS)

Media station with integrated socket, USB loading station and Qi loading function (MS).

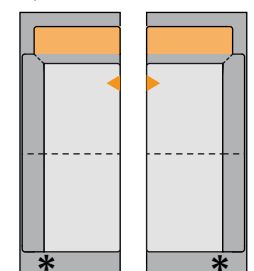

- **Socket:** VDE-standardized, 16 A, with protection against contact
- **USB loading station:** Loading function for commercial equipment with USB connection as e.g. Smartphone, MP3 player, Apple products and other mobile equipment.
- **Qi loading function:** Wireless loading of battery operated equipment as Smartphones, iPods, MP3 players etc. The wireless power transmission is effected by use of electromagnetic fields. A Qi transmitter (loading station) is transferring the needed energy to a Qi receptor (mobile phone). Each Qi compatible equipment can be operated by the Qi compatible loading station.

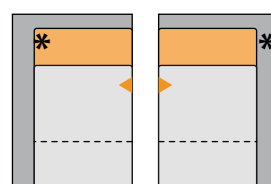

Handling: Place the mobile phone in the center of the symbol. The start of the loading process is confirmed by an acoustical signal.

Add-on corner w. ending
left/right
(IL/IR - only with EPOS 1-3)

Add-on corner w. ending
left/right
(I1/I2 - only with EPOS
1-3)

Daybed left/right
(PL/PR - only with EPOS 1-3)

Please also note our general details and sales information

Edition 04.02.2019

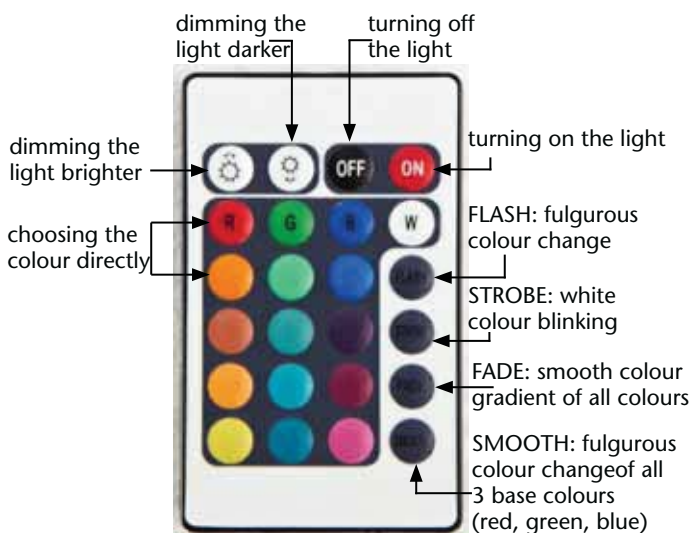

Errors and amendments excepted. Our General Terms and Conditions are effective.

LED-LIGHTING (LED)

Optional under-floor light via LED. It is setting a course of light and is bringing out the room atmosphere of the suite. The gentle, even light is effectively, energy-efficient and shadowless reflected from the floor. You can choose between 16 different colours or four different effects of light variations with additional dim function.

The LED-LIGHTING is an accessory that is fitted in our factory. Therefore the specified price is valid for a fitting at the factory.

The LED LIGHTING is controlled by an included infrared light remote control. Please note: For efficient functionality an intervisibility between the transmitter, so the infrared light remote control, and the receiver at the suite is necessary. The receiver is always fixed below a corner of the suite.

The quickness of the colour change programs FLASH, STROBE, FADE and SMOOTH can be accelerated respectively retarded by the following buttons:

working voltage: 12V DC (mains adapter)
 outlets: RGB distributor,
 control version: common anode
 charging rate controller: < 1W
 output current: max. 2A per channel
 output power: < 72W (24W per channel)

Electric supply via normal 12V wall wart with a 2,1* 5,5 cm coax-connector.

Operating voltage
 100-240 VAC

ACCESSORIES - CAPABILITIES

With the below mentioned elements the following accessories are available:

EPOS 1 - 3: C, T, CL/R and PL/R
EPOS 4: C1, C2 and C3

- Bluetooth function control **BLT (incl. remote control at the seat)**
- Soundsystem **SS**
- Mediastation **MS**
- LED-lighting with colour change **LED**

Please note: The extra charge for Bluetooth BLT has been assigned to each item.

With the below mentioned elements the following accessories are available:

EPOS 1 - 3: IL/R, I1/2, HF and K

- Soundsystem **SS**
- Mediastation **MS**
- LED-lighting with colour change **LED**

With **functional armchair VM2** and **side table KA** the **accessories** are **not** possible!

Please note: Always only 1 cable is fitted per element (even with several accessory articles per element)!

Please also note our general details and sales information

Edition 04.02.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

FUNCTIONAL ARMCHAIR

FUNCTIONAL ARMCHAIR VM2 with rotatable seats as well as seat adjustment

Leg part and back can be infinitely adjusted independently of each other via motor. The handling is effected by sidewise (at the outside of the seat) fixed buttons (4 pieces).

VM2

The motor can be actuated optionally by **mains current** or with a **rechargeable battery**.

Extra charge battery:

Please charge the battery completely before first use.

The tethered functional armchair (with mains current) has a turn limiter. This avoids that the electric cable wraps around the frame. Rotatability of this version is 320°. With rechargeable battery actuated version the functional armchair is rotatable by maximum 360°.

Metal rotary spray (5-arm) optionally available in:

- aluminium mat (satined)
- powder-coated structural black mat

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specification when ordering:

- **combination** (Attention: EPOS 1, EPOS 2, EPOS 3 and EPOS 4 can't be combined with each other!)
- **covering material**, with combination of covering materials **covering material per cover part** (in general N-NATURO is not possible)
- **finish of plateau**
- **finish of table**
- **finish of rotary spray** with functional armchair VM2
- **Accessory articles** if desired (please pay attention to the restrictions)
