

Please also note our general details and sales information

Edition 09.09.2024

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, wooden base frame

Seat upholstery structure: zig-zag springs, Dacron, polystyrene foam VW 40, Diolen

Back upholstery structure: rubber straps, cold foam, Diolen

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavel-less. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no reason for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

HEADREST

Headrest YN, 55 x 37 cm, insertable by metal holder, optionally available in:

- nickel satined (stainless steel optics)
- metal structural black mat

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as felled seams or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

This model is only worked with selvedge seam.

LEGS

Round pipe metal frame with sofa elements and with armchair A (incl. metal armrest) optionally available in:

- nickel satined (stainless steel optics)
- metal structural black mat

Single elements VX and armchair AX

Metal rotary spray optionally available in:

- nickel satined (stainless steel optics)
- metal structural black mat

or

metal rotary plate optionally available in:

- nickel satined (stainless steel optics)
- metal structural black mat

With armchair AX please note:

The metal armrest will be delivered along the lines of the metal rotary spray respectively rotary plate!

Stool H

Metal runner optionally available in:

- nickel satined (stainless steel optics)
- powder-coated black mat

(For technical reasons, the round pipe metal frame cannot be used with the stool H).

Edition 09.09.2024

Errors and amendments excepted. Our General Terms and Conditions are effective.

COMBINATION OF COVERING MATERIALS

If desired with this model two different covers can be combined.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

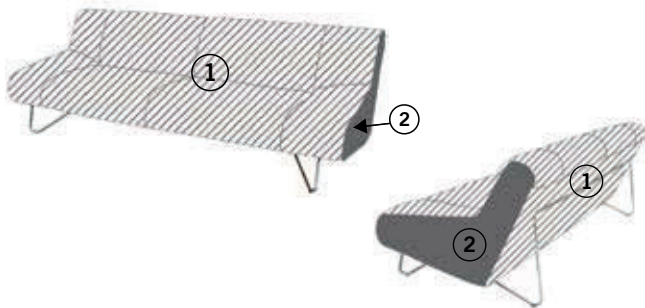

With combination of two covering materials different in prices the higher price category will be invoiced as standard.

Fabric - and leather requirements of each cover part on request.

With armchairs A and AX please note: The covered armrest overlay will be produced along the lines of cover part 1!

 cover part 1: seat, back and back tensioning section

 cover part 2: side parts seat and back

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers, with fabric-leather-combinations and with fabric 13 BISON a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Exception 13-BISON**).

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on the rear side.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specifications when ordering:

- **article / combination**
- **covering material**, with combination of covering materials
- **covering material per cover part**
- with leather covers and fabric-leather-combinations **production with or without contrast stitching**
- with version with contrast stitching **colour of contrast thread**
- **finish of round pipe frame**
- **version rotary spray or rotary plate** with single elements VX and armchair AX
- **finish of metal runner** with stool H
- **version headrest**, if desired

Errors and amendments excepted. Our General Terms and Conditions are effective.
