Edition 21.12.2022

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

## DESIGN

### CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure: rubber straps, polystyrene foam VW 40, Diolen

Back/railing: solid wood

Back cushion: 50% Latex foam VW 50, 50% duck plumes, Diolen

### UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavelless. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

## SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

The model is only worked with selvedge seam.

## COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

## INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

## BACK CUSHIONS

With model HENDSON the back cushions matching the element are already included.

The separate back cushions YC, YE and YB as well as the functional back cushion YX can be ordered as an option.

## FUNCTIONS

### I OPEN ENDING WITH FOLDING FUNCTION

Selected elements have an open ending with function. It can be adjusted into different positions via ratchet mechanism. By pulling beyond the highest position the function can be returned to the basic position. Ratchet mechanisms must not be used as seat in the folded up state. The joints are not designed for use with the entire weight of the body.

### II SWIVELLING SEAT

With elements with code „1“ the seat incl. the open ending (with ratchet mechanism) is swivellable. By manually turning forward up to 90° the complete seat can be converted into a lying area. Thereby the seat as well as the total depth is enlarged.

### III MOTOR-DRIVEN SEAT DEPTH ADJUSTMENT

With the sofas C and E as well as with the add-on elements CL/R, EL/R and BL/R a motor-driven seat depth adjustment can be integrated (against extra charge see price sheet). The seat is moved forward via motor. The handling is effected by sensors that react to touch, are formed as buttons and are fixed to the cover (TOUCH IT Technology). Thereby the seat and the total depth is enlarged up to 21 cm.

Edition 21.12.2022

Errors and amendments excepted. Our General Terms and Conditions are effective.

## LEGS

Metal runner optionally available in:

- nickel satined (stainless steel optics)
- powder-coated structural black mat

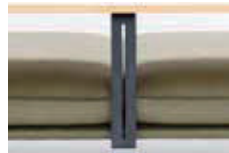

from the left to the right:

## BACK SPACER

The back spacers are optionally available in:

- nickel satined (stainless steel optics)
- powder-coated structural black mat

## WOODEN RAIL

The solid wooden rail UV laminated with oil effect is optionally available in:

- wild oak natural
- walnut (against extra charge see price sheet)

from the left to the right:

## COMBINATION OF COVERING MATERIALS

If desired two different covering materials can be combined with this model.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

Calculation base is the chosen price category of cover part 1 (independent of cover part 2).

Fabric- and leather requirement of each cover part on request.

 cover part 1: seat

 cover part 2: back cushion

## FRAME

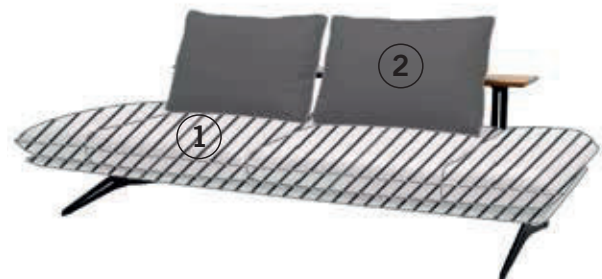

It can be chosen between a covered frame and a solid wooden frame.

The covered frame will be delivered on the lines of the chosen covering material.

The solid wooden frame UV laminated with oil effect (against extra charge see price sheet) is optionally available in:

- wild oak natural
- walnut

from the left to the right:

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

## CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

### CONTRAST STITCHING

With leather covers, with fabric-leather-combinations and with fabric 13 BISON a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Exception 13-BISON**).

### THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on the rear side.

## ORDER CHECK LIST

Please pay attention to the following issues respectively complete specifications when ordering:

- **combination** (back cushions are already included!)
- **covering material**, with combination of covering materials
- **covering material per cover part**
- with leather covers and fabric-leather combinations **production with or without contrast stitching**
- with production with contrast stitching **colour of contrast thread**
- **finish of metal runner**
- **finish of wooden rail**
- **finish of back spacer**
- with **version solid wooden frame** also **finish**

Errors and amendments excepted. Our General Terms and Conditions are effective.

**Sofas CG, EG and BG as well as recamier IAL/R:** These elements have an **open ending with folding function**.  
 Total height without back cushions: 58 cm / seat depth without back cushions: 79 cm.  
 The back cushions matching the element are already included.
