DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered armchair, metal frame

Seat upholstery structure: rubber straps, Dacron, polystyrene foam VW 40, Diolen

Back upholstery structure: Dacron, polystyrene foam, Diolen

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not waveless. The ridge of the covers on the seat, back and armrests as well as sitzmarks due to the model and design are typical.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

LEGS

Metal rotary spray optionally available in:

- nickel satined (stainless steel optics)
- powder-coated structural black mat

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

Instead of the joining seam a distinctive zipper is used as detail. Independent of the chosen covering material the zipper is always supplied in black.

COMBINATION OF COVERING MATERIALS

If desired this model can be produced two coloured.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

With combination of fabric and leather the leather price will be invoiced as standard.

Fabric- and leather requirement of each cover part on request.

 cover part 1: seat and back

 cover part 2: seat and back tensioning section
