Edition 29.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure: zig-zag springs, Dacron, polystyrene foam VW 35, 70% foam sticks VW 40, 30% silic. hollow fiber, Diolen

Seat upholstery structure with daybeds: rubber straps, polystyrene foam VW 35, 70% foam sticks VW 40, 30% silic. hollow fiber, Diolen

Back upholstery structure: rubber straps, polystyrene foam, 50% foam sticks, 50% duck plumes, Diolen

UPHOLSTERY VERY CASUAL

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A very casual upholstery is characterized by a smooth, soft surface. The covers are intended showing a distinctive curly image and an extended wrinkling on seat, back and armrests already in new condition. With this high quality upholstery with bay quilting as applied a flexible mixture out of loose filling material as foam sticks and/or plumes enables a point adaptation to the body. For this the fillings are worked in separate bays which come more or less apparent depending on the cover. Sitzmarks are due to model and design typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

LOAD CAPACITY

Please note: Each seat can be weighted with maximum 130 kg body weight. Therefore only one person should sit on a seat.

The daybeds **P7X, P5X, P3X, P1/2X** and **PL/RX** can be weighted with maximum 160 kg.

The weight carrying capacity of functional parts is limited and not designed for load with the body weight (max. 30 kg). The adjustable functional back as well as the functional armrests must not be used as seat.

POSSIBLE COMBINATIONS WITH DAYBEDS

The daybeds P7X, P5X and P3X can be placed separately as well as in combination with an add-on element.

Placed separately no connectors are used, in combination with add-on elements the connector is factory-fitted.

FUNCTIONS

I FUNCTIONAL ARMREST

The armrests are adjustable by a ratchet mechanism that allows different positions. By pulling beyond the highest position the armrest can be returned to the basic position.

Please note: Armrests with ratchet mechanisms must not be used as seat in the folded up state. The joints are not designed for use with the entire weight of the body.

II HEAD PIECE ADJUSTMENT

The head piece is adjustable manually by a ratchet mechanism that allows different positions.

III BACK ADJUSTMENT

The back is adjustable independently of the head piece by a ratchet mechanism that allows different positions.

IV SEAT ADJUSTMENT

The seats can be moved to the left as well as to the right.

In addition a turning function (360°) is integrated in each seat.

Exception HB: The stool bench has no function.

Turn stopper

A turn stopper can be optionally fitted to the seat.

It will be charged per article against extra charge (see price sheet). With 2-seats turning elements with both seats.

By actuation of the sidewise fitted button the rotation of the seat is stopped and is locked in the desired position.

Even with locked seats the elements can be moved.

Please note: Due to the turn stopper the seat height is enlarged up to approx. 1 cm.

FLOOR CUSHION

The floor cushion Y offers an additional seat possibility on the plateau.

Please also note our general details and sales information

Edition 29.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

LEGS

Sword runner no. 1 optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

Fan runner no. 2 optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

Flat steel runner no. 3 optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

COMBINATION OF COVERING MATERIALS

If desired with this model two different covers can be combined.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

With combination of two covering materials of a different price the higher price category will be invoiced as standard.

Fabric- and leather requirement of each cover part on request.

 cover part 1: seat and back

 cover part 2: seat- and back tensioning section

WOODEN PLATEAU AND WOODEN FRAME

Wooden plateau with dull edge optionally available in:

- solid beech (UV laminated with oil effect)
- wild oak natural solid (UV laminated with oil effect) against extra charge see price sheet

- wild oak bianco solid (UV laminated with oil effect) against extra charge see price sheet

from the left to the right:

Wooden plateau with under-cut edge available in:

- cement optics (lacquered, spread by hand scraper) against extra charge see price sheet

Please note:

The stool bench HB will be supplied with a wooden frame. The finishes can be chosen on the lines of the plateau.

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

The model is only worked with selvedge seam.

Edition 29.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric-leather-combinations a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Exception 13-BISON**).

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on the rear side.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

Already in the standard version dimensional differences with the height between add-on element and daybed up to approx. 1 cm can arise according to the construction.

The difference in dimension is in the tolerance range of the DGM rules.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete indications when ordering:

- **combination**
- **covering material**, with combination of covering materials
- **covering material per cover part**
- with leather covers and fabric-leather-combination
- **production with or without contrast stitching**
- with version with contrast stitching **colour of contrast thread**
- **leg version**, also **finish**
- **finish of wooden plateau**
- with HB: **finish of wooden frame**
- **optional turn stopper**
