Edition 29.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, wooden base frame

Seat upholstery structure: zig-zag springs, Dacron, barrel spring, Diolen

Back upholstery structure: rubber straps, polystyrene foam, Diolen

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavelless. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

This model is only worked with selvedge seam.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

FUNCTIONS

FUNCTIONAL BACK

With each element the back can be raised. Thereby the seat depth is enlarged up to 14 cm. The sofa becomes a high back.

FUNCTIONAL ARMREST

The armrests are adjustable by a ratchet mechanism that allows different positions. By pulling beyond the highest position the armrest can be returned to the basic position.

Please note: Armrests with ratchet mechanisms must not be used as seat. The joints are not designed for use with the entire weight of the body.

Please note: The **armchair small V** has **no back function** and also **no functional armrest** (fixed back and armrest).

Difference in dimension: For visual reasons with the armchair V the armrests are respectively 6 cm smaller than with other elements.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

CUSHION RECOMMENDATION

With the **add-on corners I1/2 and IL/R** we recommend to use in addition the back cushion Y (84 x 48 cm) for an optimal and improved seat comfort.
